

# MUHAMMAD AWAIS SHAFIQUE

M/S

Full-Stack & Mobile App Developer | Blockchain & Web3 | AI-Integrated Systems

+92 307 9398190 | awaishshafique448@gmail.com | cryptocurrencychain.net | github.com/iamawais123 |  
Faisalabad, Pakistan

## PROFESSIONAL SUMMARY

BS Software Engineering graduate (CGPA: 3.0, 2026) from National Textile University, Faisalabad. Founder of SoftWeb Technologies, a software house delivering websites, mobile apps, and custom platforms for clients. Also solo founder of CryptocurrencyChain (cryptocurrencychain.net) and vSellerStore (vsellerstore.com) — two live production SaaS platforms with real-time trading, multi-wallet integration, and multi-vendor e-commerce. Interned at Safi Dot Tech delivering Flutter apps and a multi-tenant School Management SaaS. Developed HemoHeal, an AI-powered healthcare capstone using Flutter, FastAPI, and LangChain.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, Dart, Python, HTML5, CSS3, SQL

**Frameworks:** React.js (Vite), Next.js, Node.js, Express.js, Flutter, FastAPI, LangChain, Tailwind CSS

**Blockchain & Web3:** MetaMask, Trust Wallet, WalletConnect, multi-chain wallet APIs, real-time crypto feeds, live trading systems

**Backend & DB:** Firebase (Firestore, Auth, Storage, FCM), MongoDB, REST API design, async/await patterns

**Tools:** Git & GitHub, Postman, VS Code, Android Studio, Agile/Scrum, SaaS architecture, CI/CD, OOP, SOLID

## EXPERIENCE

### Founder & Lead Developer — CryptocurrencyChain

Jan 2024 - Present

Self-Founded SaaS | React (Vite), Node.js, Firebase, Blockchain Wallet APIs | Live: cryptocurrencychain.net

- Architected and launched a full-stack crypto trading platform, live at cryptocurrencychain.net with real users and transactions.
- Multi-wallet integration: MetaMask, Trust Wallet, WalletConnect, and all major blockchain chains with one-click connect.
- Real-time live price feed and trade execution engine streaming market data with sub-second latency.
- Complete buy/sell trading flow, wallet-connected transaction signing, order confirmation, and live portfolio dashboard.
- Separate admin portal on a private domain for platform management, user oversight, analytics, and system monitoring.
- Modular, multi-tenant, white-label-ready SaaS architecture for third-party licensing.

### Founder & Lead Developer — vSellerStore

2025 - Present

Self-Founded SaaS | React, Firebase | Live: vsellerstore.com

- Built and launched a live multi-vendor e-commerce SaaS connecting a customer storefront, seller admin dashboards, and a super admin platform for seller management.

### Software Developer Intern — Safi Dot Tech

Jun 2025 - Sep 2025

Faisalabad, Pakistan | Flutter, Firebase, Firestore

- Built cross-platform Flutter apps for live clients: UI screens, Firebase Authentication, Firestore, Provider state management.
- Delivered a School Management SaaS: a multi-school platform for students, teachers, attendance, scheduling, and fees.
- Multi-tenant Firestore architecture with per-school data isolation and role-based access (Admin / Teacher / Student).
- Git workflows, code reviews, Agile sprints, and structured project handover under real deadlines.

### Independent Developer — Personal Projects

Jan 2023 - Present

Flutter, React.js, Firebase, FastAPI, MERN Stack

- HemoHeal: AI blood donation & thalassemia platform (Flutter, FastAPI, Firebase, LangChain) with intelligent donor-recipient matching and NL query handling.

- Meal Planner: cross-platform iOS & Android app with Firebase sync, nutrition tracking, automated shopping lists, FCM push notifications.
- MERN E-Commerce Suite: two stores with JWT auth, cart, Stripe-ready checkout, admin panel, ~35% React bundle reduction.

## KEY PROJECTS

**CryptocurrencyChain** — 2024 - Present | React (Vite), Node.js, Firebase, Multi-Wallet APIs  
Production crypto trading SaaS: real-time trading engine, all-wallet connect, buy/sell flow, portfolio dashboard, admin portal, white-label infrastructure.

**vSellerStore** — 2025 - Present | React, Firebase  
Live multi-vendor e-commerce SaaS: customer store, seller admin dashboards, and a super admin dashboard for platform-wide seller management.

**HemoHeal** — 2024 | Flutter, FastAPI, Firebase, LangChain  
AI-powered blood donation & thalassemia platform. Donor-recipient matching by blood type & location, LangChain NL query pipeline, async FastAPI backend. NTU capstone project.

**School Management System SaaS** — 2025 | Flutter, Firebase Firestore, Multi-tenant  
Multi-school SaaS: enrollment, teacher management, scheduling, attendance, fees, with three-role RBAC and isolated Firestore per school.

**E-Commerce Platform Suite** — 2023 | MongoDB, Express.js, React.js, Node.js  
Two full-stack stores (laptops & shoes): JWT auth, product search, cart, Stripe-ready checkout, admin dashboard, ~35% bundle size reduction.

## ACHIEVEMENTS & ACTIVITIES

- Founded SoftWeb Technologies, a software house delivering websites, mobile apps, and custom software for clients.
- Founded CryptocurrencyChain and vSellerStore — two live production SaaS platforms — with full ownership from architecture to deployment.
- Delivered a complete School Management SaaS within a 4-month internship at Safi Dot Tech, independently scoped and shipped.
- Among the first NTU students to integrate LangChain and LLM pipelines into a live project — HemoHeal recognised in academic review for AI integration.
- Active LeetCode DSA practice, preparing for technical interviews at top-tier technology companies.

## EDUCATION

**BS Software Engineering — National Textile University** 2022 - 2026  
Faculty of Computer Science | Manawala, Faisalabad, Pakistan | CGPA: 3.0 / 4.0  
Specialisation in mobile & web development, software engineering, and AI-integrated systems. Coursework: DSA, Software Requirements Engineering, QA, Database Systems, Mobile Development, HCI, Complex Adaptive Systems.  
**Capstone:** HemoHeal — AI blood donation & thalassemia platform (Flutter, FastAPI, Firebase, LangChain), supervised by Dr. Isma Hamid, NTU.

## LANGUAGES

Urdu — Native / Fluent      English — Proficient (B2+, technical reading, writing & speaking)
